

Max-Well™

Offering Solutions for Maximum Wellness

My Personal Journey with Max-Well Products

Dear AG-USA/Max-Well Customers,

My name is Paul Schneider Jr. I would like to take this opportunity to tell you about our Max-Well nutritional supplements. Below I share my personal journey.

In 1999 my wife and I finished our 18 years of service as Baptist missionaries in Ghana, West Africa. In 2003 I started AG-USA. In 2004 I read Dr. Maynard Murray's book on Sea Energy Agriculture and became excited about the amazing health benefits that plants grown with sea minerals can bring to people. I started encouraging growers to use our current sea mineral product (Ocean Solution). As they did, they told me how insect and disease pressure disappeared, shelf life increased, plus foods became much more flavorful. But nobody saw the yield increases I knew were possible. It was at that time that I began praying for a sea mineral product that would be much less expensive and much more concentrated.

GroPal Sea Mineral Concentrate

The Lord answered my prayer! In 2006 a friend who worked at the Ocean Solution company told me about the Gerry Amena interview in the AcresUSA magazine. Within months I had become Gerry's USA distributor for GroPal. It was a much cheaper and much more concentrated sea mineral product! I started selling it, and my customers started getting the yield increases that Dr. Maynard Murray spoke of in the book, Sea Energy Agriculture.

My Dream

Back around 2004 I had a dream. I was driving a school bus with five first-string basketball players with me. I was on my way to the town of Maxwell. The dream detailed a bit of my journey to Maxwell. Some of this dream has already been fulfilled. When I awoke, I asked the Lord, "What is Maxwell?" He spoke to me and said, "Maximum Wellness." It was at that point that God started giving me "solutions for maximum wellness." That's why I became so excited, when in 2006, Gerry Amena told me that he had a cure for AIDS. But the Lord told me that it wasn't time for me to do anything with it. So, I did my best to sit on it (though I did offer the product for free to anyone I met living with HIV or those working with people with HIV). No one I spoke with in the USA seemed very interested. They preferred just to stay on their AIDS medications.

Then in 2009 the Lord spoke to me again, saying it was time - go for it with all my might. Immediately I started to meet individuals who were working overseas with people with HIV. I started raising money and then donating the product, and within a year I had sent our Immune Formula (SupaBoost) to 14 countries. Then, Pastor Jumba in Kenya offered to help me with a study. He and his wife ran a clinic and worked closely with government health officials in the Vihiga District.

Our Two Studies

We started our first study in December 2010 in Kenya with 90 children who were very sick with AIDS. We gave half of them the Immune Formula and the other half our Ionic Sea Minerals as a control. I wanted them to get the nutrition of the sea minerals, but believed it was the 7 herbs in the Immune Formula that actually would help their AIDS. Three months later, I was quite surprised to learn that the 45 who received just the sea minerals did a tiny bit better in their recoveries than those receiving the Immune Formula (sea minerals with 7 herbs). It was actually the sea minerals that were the key!

Although most of the kids had their health restored by the end of the study, nine of them were still battling for their lives. I went back to the Lord and said, "Lord, we need something to help these nine children as well." It was then that God led me to Scott Kennedy and SeaVeg. I sent over some SeaVeg, and for the next three months these nine kids took the sea minerals plus the SeaVeg. By the end of this 2nd three months they had all recovered and were healthy!

In 2013 I decided to do a 2nd study, this time giving participants a product with five varieties of sea vegetables. There were 350 people in the study, 2/3rds of them children. I went over to Kenya to oversee the close of the study. Ninety percent of those tested had lost all AIDS symptoms by the end of the study. Ten percent still had symptoms, but they had things like Tuberculosis, which doesn't go away without medical treatment. The symptoms that disappeared were terrible rashes, ringworm, sores in the mouth and wasting (where they had no appetite for food and wasted down to nothing).

I went from home to home out in the villages interviewing those in the study who had been the worst off, and put my interviews into a video. I found that most of those who were interviewed started losing their AIDS symptoms within a month

of starting the supplement. Strength returned; farmers returned to farming; children were able to go back to school. People who were skin and bones were able to put on weight and became healthy!

Ocean Treasure

In 2016 when Scott Kennedy was removed from his own company by a hostile takeover, I decided to start manufacturing my own sea vegetable formula, Ocean Treasure. This consists of a proprietary blend of 9 sea vegetables and powdered Ionic Sea Minerals. It is an amazing product! I sent it to Kenya and Ivory Coast for evaluation. They said “it works better for AIDS than either the Ionic Sea Minerals or the sea vegetables by themselves.”

HIV is a virus. So is Ebola. When the Ebola outbreak came in Liberia, I sent some Ocean Treasure to a pastor friend of mine in Liberia. If it works for one virus, perhaps it will work for another. My friend took the Ocean Treasure to a quarantine camp, where people came who had Ebola symptoms. If their symptoms persisted, those in charge would send them to a treatment center. I spoke with the director of the quarantine camp. He said he gave the Ocean Treasure to everyone who came in. He said that within three days, every person returned home, symptom free. Amazing! I tried to get Ocean Treasure into the treatment centers, but they said they couldn't use it because it hadn't been approved by the government.

- I have given Ocean Treasure to three people with Mononucleosis, and all three made rapid recoveries. One of them had struggled with Mono for a year and a half.
- My brother-in-law had West Nile Virus. He took Ocean Treasure and within days was back on his feet. Other people in the area with West Nile usually struggled with it for over a month.
- I gave Ocean Treasure, Quercetin and Zinc to two friends of mine with Covid-19 and within days they were back on their feet (Four Ocean Treasure, 1,000 mg. Quercetin and 60 mg. Zinc a day).

Now, I am not making any claims that Ocean Treasure treats or cures anything. It simply supplies the body with amazing nutrients that help the body to heal. It also helps the body to detox from heavy metals.

Heavy Metals

Back in 2010 when I first met Scott Kennedy, he told me that the sea vegetables did an even better job of detoxing the body from heavy metals than Chlorella. So, I stopped taking Chlorella and just took the sea vegetables.

I have listened to Dr. Richard Olree at AcresUSA conferences three different years. The last time I went, he offered his heavy metal test to those in attendance. I did the lab test, then did the phone consultation with him. He was totally amazed by my test results. “You must be one of the cleanest people in the world.” During the 25-minute interview he commented five times that he couldn't get over just how clean my body was of heavy metals. “And you're 60 years old. Heavy metals tend to accumulate in the body with age.”

In February this year I was listening to an audio of a US doctor interviewing a man in Italy where they were hit especially hard by Covid-19. Twenty-one minutes into the interview the man made an amazing statement. “We in Italy tend to have a lot of heavy metals, and of course, a virus can't replicate without heavy metals.” **A VIRUS CAN'T REPLICATE WITHOUT HEAVY METALS!** Perhaps this is one of the reasons why Ocean Treasure works so well for viruses – it cleanses the body of heavy metals! It has also been scientifically proven that some of the sea vegetables in Ocean Treasure are anti-viral. I personally have not had a viral infection since I began taking sea vegetables. I don't get the flu anymore!

Ionic Sea Minerals

I started taking our Ionic Sea Minerals in 2006. I got them from Gerry Amena in Australia, and now I get them from his partner Nik. I just wanted the wonderful benefits of sea minerals spoken of by Dr. Maynard Murray. I got far more! Within a day, my chronic constipation was over. Ionic Sea Minerals contain magnesium, which pulls moisture into the colon, which helps to expel stool. The sea minerals cleansed my colon and now keep it squeaky clean! No more constipation! You just regulate your bowels with how much sea minerals you take. I take a teaspoon a day.

SeaBoost Cream

How about an amazing cream for the skin, one containing sea minerals? My dad put SeaBoost Cream on his psoriasis, and almost immediately his skin started clearing up. SeaBoost Cream does a great job of moisturizing the skin. One of our customers said she's tried about every facial cream out there, and SeaBoost Cream works better than any of them. I use it daily for my forehead, which tends to dry out and get bumps. It has reduced the bumps to nothing and keeps my forehead from flaking. For me, a small jar lasts a very long time!

We want to get these good products into the hands of more people, so we are aggressively looking for dealers. If you are interested, let us know. **Ionic Sea Minerals retail at \$17.95** for 45 days' worth. **Ocean Treasure retails at \$44.95** for three months' worth. The small jar of **SeaBoost Cream retails at \$29.95**, the large jar at **\$54.95**. Shipping is **\$4** for one item and **\$8.30** for up to 3 items. If you want to purchase some to try, you can call with a card or just send a check.
