

Max-Well™

Offering Solutions for Maximum Wellness

For Potential Max-Well Dealers

Dear Friend,

I thought I would send you this in case you might have an interest in becoming a Max-Well dealer. Max-Well is a subsidiary of AG-USA (MycorrPlus). Whether selling soil amendment through AG-USA or health supplements through Max-Well, our goal is the same – to help as many people as possible. Because we believe the Max-Well products will improve the health of those who use them, we are trying to get them into the hands of as many people as possible.

In this packet we have included a LOT of information. We have included all of this information because we want you to know just how special our three products are. Our hope is that this packet will provide you with all of the information you need to share the benefits of Max-Well products with others.

If you want to make a purchase, you can call with a card or simply send a check. To just purchase a small amount, retail pricing will apply. See the back side for both dealer and retail pricing. For a small or large jar of SeaBoost Cream, an 8 oz. bottle of Ionic Sea Minerals or a small or large bottle of Ocean Treasure, shipping is \$4 for the first item and \$8.30 if you want to buy two or three items. You can send a check and let us know what you would like!

We currently have three products:

- Ocean Treasure – contains nine varieties of seaweed (4 red, 4 brown and 1 green) and some powdered Ionic Sea Minerals. The seaweeds are grown in the perfect mineral solution (ocean water) and contain hundreds of phytonutrients. This is a wonderful source of nutrition, plus the sea vegetables help to eliminate heavy metals from the body.
- Ionic Sea Minerals – 100 gallons of pristine Australian ocean water evaporated down to 1 gallon. This is a wonderful source of trace minerals.
- SeaBoost Cream – this has an amazing array of nutrients that are wonderful for the skin.

Ocean Treasure

In 2010 when I first met Scott Kennedy, he told me that the sea vegetables did an even better job of detoxing the body from heavy metals than Chlorella. So, I stopped taking Chlorella and just took the sea vegetables. In February of 2020 I was listening to an audio of a US doctor interviewing a man in Italy where they were hit especially hard by Covid-19. Twenty-one minutes into the interview the man made an amazing statement. “We in Italy tend to have a lot of heavy metals, and of course, a virus can’t replicate without heavy metals.” A VIRUS CAN’T REPLICATE WITHOUT HEAVY METALS! Perhaps this is one of the reasons why it seems Ocean Treasure works so well to safeguard us from viruses – it helps to remove heavy metals from the body! Also, it has been scientifically proven that some of the sea vegetables in Ocean Treasure are anti-viral. I personally have not had a viral infection since I began taking sea vegetables in 2010. I don’t come down with the flu anymore!

But the nutrients in Ocean Treasure go far beyond just helping equip the body to resist viruses. Dr. Maynard Murray found out that when animals were fed food fertilized with sea minerals, it helped their bodies to resist cancers and other diseases. In Ocean Treasure, you are not only getting sea vegetables grown in the ocean with all the minerals available to them, but you are also getting 1/6th a dose of Ionic Sea Minerals in powder form. So, you get the phytonutrients found in the sea vegetables AND you get a concentrated source of trace minerals!

Ionic Sea Minerals

I started taking Max-Well Ionic Sea Minerals in 2006. I just wanted the trace mineral benefits spoken of by Dr. Maynard Murray. I got far more! Within a day, my chronic constipation was gone. Ionic Sea Minerals contain magnesium, which pulls moisture into the colon, which helps to expel stool. The sea minerals cleansed my colon and now keep it squeaky clean! No more constipation! This means those toxins contained in compacted feces in the colon are no longer being absorbed back into my body!

With Ionic Sea Minerals, you can regulate the hardness or softness of your stool by adjusting the amount of sea minerals you take. I take a teaspoon a day, which, when purchased by the gallon, retails for less than \$5 a month. The greatest problem with Ionic Sea Minerals is the taste. For the first number of days they can produce a gag reflex. Therefore, it is really helpful to put them into chocolate milk, grape juice or lemonade to mask the taste. After a month or two the body becomes acclimated to them and they can be taken in water. Every morning I put a teaspoon in 16 oz. of water and don't even notice the taste.

SeaBoost Cream

How about an amazing cream for the skin, one containing sea minerals? My dad put SeaBoost Cream on his psoriasis, and almost immediately his skin started clearing up. It does a great job of moisturizing. One of our customers said she thinks she's tried every facial cream on the market. She told me that SeaBoost Cream works better than any of them. I use it daily for my forehead, which tends to dry out and get bumps. It has reduced the bumps to nothing and keeps my forehead from flaking. Because of its concentrated nature, even a small jar of SeaBoost Cream lasts quite a while – a little goes a long way!

Max-Well Dealer Prices

Ocean Treasure

60 capsules (30-day supply) - \$9 per bottle (retails at \$16 per bottle) – 40 bottles in a case
180 capsules (90-day supply) - \$25 per bottle (retails at \$44.95 per bottle) – 15 bottles in a case
